Building and Safety Codes for Industrial Facilities

Joseph N. Sabatini, Stephen R. Sabatini, Robert D. Smith

Building and Safety Codes for Industrial Facilities Joseph N. Sabatini, Stephen R. Sabatini, Robert D. Smith

Here is the first book to provide all professionals involved in design and construction, including plant engineers, architects, safety engineers, and industrial equipment manufacturers with complete coverage of all the codes, regulations, and standards governing the design, construction, and maintenance of industrial facilities. It covers buildings, hazardous processes, discharges of air and water pollutants, and hazardous wastes. This book includes detailed information on the zoning of property, building, fire, mechanical, energy, plumbing and electrical codes, National Fire Protection Association standards, federal state OSHA regulations, hazardous waste regulations etc. This is an essential reference that will save professionals time in researching codes, regulations, and standards, and provide them with economic guidance in the applications of codes that can save considerable construction costs. It will also assist in avoiding code violations as well as redesign and construction delays.
