Instant Team Foundation Server 2012 and Project Server 2010 Integration How-to Gary P. Gauvin

In Detail

Developers and project managers managing large software development projects often find themselves at odds during the course of a project. This usually ends with the developers feeling they are wasting time sending status updates, and the project managers feeling that they aren't getting all the information they need to satisfy stakeholders. It doesn't have to be that way!

Instant Team Foundation Server 2012 and Project Server 2010 Integration How-to, is a practical format that walks you through what you need to know to get two of Microsoft's most popular products for managing team productivity integrated. We boil down the complex parts to deliver just what you need to know to get started today.

The book takes you through the planning, setup, and configuration of Team Foundation Server Extensions for Project Server. Step-by-step instructions are provided with enough detail to get you started without burdening you with a ton of background information.

Learn the basics of how to manage the integration as well as a few helpful tips on establishing a test environment, and the basics of how to integrate these server-based technologies.

You will learn everything you need to know to get started with planning, installing, and managing the integration.

Approach

Filled with practical, step-by-step instructions and clear explanations for the most important and useful tasks. Get the job done and learn as you go. A how-To book with practical recipes accompanied with rich screenshots for easy comprehension. The How-to style is a very practical book which will take the reader through the process of garnering a basic understanding of TFS and Project Server with practical tutorials and recipes.

Who this book is for

This book is for users who want to integrate TFS 2012 and Project Server 2010. Readers are expected to know some basic Windows Server commands and account management, and have administrative access to the servers being configured.
