The Sourcebook of Nonverbal Measures: Going Beyond Words

The Sourcebook of Nonverbal Measures provides a comprehensive discussion of research choices for investigating nonverbal phenomena. The volume presents many of the primary means by which researchers assess nonverbal cues. Editor Valerie Manusov has collected both well-established and new measures used in researching nonverbal behaviors, illustrating the broad spectrum of measures appropriate for use in research, and providing a critical resource for future studies.

With chapters written by the creators of the research measures, this volume represents work across disciplines, and provides first-hand experience and thoughtful guidance on the use of nonverbal measures. It also offers research strategies researchers can use to answer their research questions; discussions of larger research paradigms into which a measure may be placed; and analysis tools to help researchers think through the research choices available to them.

With its thorough and pragmatic approach, this *Sourcebook* will be an invaluable resource for studying nonverbal behavior. Researchers in interpersonal communication, psychology, personal relationships, and related areas will find it to be an essential research tool.
