Abiotic Stress Responses in Plants: Metabolism, Productivity and Sustainability

Abiotic Stress Responses in Plants: Metabolism, Productivity and Sustainability

Abiotic stress cause changes in soil-plant-atmosphere continuum and is responsible for reduced yield in several major crops. Therefore, the subject of abiotic stress response in plants - metabolism, productivity and sustainability - is gaining considerable significance in the contemporary world. Abiotic stress is an integral part of "climate change," a complex phenomenon with a wide range of unpredictable impacts on the environment. Prolonged exposure to these abiotic stresses results in altered metabolism and damage to biomolecules. Plants evolve defense mechanisms to tolerate these stresses by upregulation of osmolytes, osmoprotectants, and enzymatic and non-enzymatic antioxidants, etc. This volume deals with abiotic stress-induced morphological and anatomical changes, aberrations in metabolism, strategies and approaches to increase salt tolerance, managing the drought stress, sustainable fruit production and postharvest stress treatments, role of glutathione reductase, flavonoids as antioxidants in plants, the role of salicylic acid and trehalose in plants, stress-induced flowering. The role of soil organic matter in mineral nutrition and fatty acid profile in response to heavy metal stress are also dealt with. Proteomic markers for oxidative stress as a new tools for reactive oxygen species and photosynthesis research, abscisic acid signaling in plants are covered with chosen examples. Stress responsive genes and gene products including expressed proteins that are implicated in conferring tolerance to the plant are presented. Thus, this volume would provides the reader with a wide spectrum of information including key references and with a large number of illustrations and tables.

Dr. Parvaiz is Assistant Professor in Botany at A.S. College, Srinagar, Jammu and Kashmir, India. He has completed his post-graduation in Botany in 2000 from Jamia Hamdard New Delhi India. After his Ph.D from the Indian Institute of Technology (IIT) Delhi, India in 2007 he joined the International Centre for Genetic Engineering and Biotechnology, New Delhi. He has published more than 20 research papers in peer reviewed journals and 4 book chapters. He has also edited a volume which is in press with Studium Press Pvt. India Ltd., New Delhi, India. Dr. Parvaiz is actively engaged in studying the molecular and physio-biochemical responses of different plants (mulberry, pea, Indian mustard) under environmental stress.

Prof. M.N.V. Prasad is a Professor in the Department of Plant Sciences at the University of Hyderabad, India. He received B.Sc. (1973) and M.Sc. (1975) degrees from Andhra University, India, and the Ph.D. degree (1979) in botany from the University of Lucknow, India. Prasad has published 216 articles in peer reviewed journals and 82 book chapters and conference proceedings in the broad area of environmental botany and heavy metal stress in plants. He is the author, co-author, editor, or co-editor for eight books. He is the recipient of Pitamber Pant National Environment Fellowship of 2007 awarded by the Ministry of Environment and Forests, Government of India.

From reader reviews:

Lawrence Richardson:

Do you have favorite book? Should you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each book has different aim or goal; it means that publication has different type. Some people feel enjoy to spend their the perfect time to read a book. They are really reading whatever they consider because their hobby is definitely reading a book. How about the person who don't like reading through a book? Sometime, individual feel need book when they found difficult problem or perhaps exercise. Well, probably you will need this Abiotic Stress Responses in Plants: Metabolism, Productivity and Sustainability.

Jeffery Hall:

Nowadays reading books be a little more than want or need but also become a life style. This reading habit give you lot of advantages. The advantages you got of course the knowledge the actual information inside the book that improve your knowledge and information. The knowledge you get based on what kind of publication you read, if you want attract knowledge just go with schooling books but if you want experience happy read one along with theme for entertaining including comic or novel. The particular Abiotic Stress Responses in Plants: Metabolism, Productivity and Sustainability is kind of reserve which is giving the reader unforeseen experience.

Louis Trent:

A lot of people always spent their free time to vacation as well as go to the outside with them family or their friend. Do you realize? Many a lot of people spent these people free time just watching TV, or maybe playing video games all day long. If you wish to try to find a new activity that's look different you can read the book. It is really fun for yourself. If you enjoy the book which you read you can spent the entire day to reading a book. The book Abiotic Stress Responses in Plants: Metabolism, Productivity and Sustainability it is extremely good to read. There are a lot of people who recommended this book. They were enjoying reading this book. In case you did not have enough space to create this book you can buy the particular e-book. You can m0ore effortlessly to read this book out of your smart phone. The price is not very costly but this book features high quality.

Linda White:

Reading a e-book make you to get more knowledge from that. You can take knowledge and information from your book. Book is composed or printed or illustrated from each source this filled update of news. With this modern era like at this point, many ways to get information are available for an individual. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just searching for the Abiotic Stress Responses in Plants: Metabolism, Productivity and Sustainability when you

desired it?
