Study Guide for Pharmacology: A Nursing Process Approach Joyce LeFever Kee, Evelyn R. Hayes, Linda E. McCuiston, Nancy Haugen

Corresponding to the chapters in Kee's *Pharmacology: A Patient-Centered Nursing Process Approach, 8th Edition*, this study guide offers practical activities to help you review and remember essential nursing pharmacology. Hands-on exercises include study questions, case studies, and NCLEX® review questions, making it easier to apply your knowledge to clinical practice and develop clinical reasoning skills.

- **NCLEX® review questions** in each chapter include application-level questions and alternate-item format questions.
- **Case studies** enhance your understanding of nursing responsibilities in therapeutic pharmacology.
- **Medications and Calculations chapter** offers additional opportunities to test your knowledge and skill in drug dosage calculation.
- **75 sample drug labels** familiarize you with the real labels you will see in clinical practice.
- **Answers for all exercises** are provided at the back of the book to make studying easier.
- **Study questions** are provided in formats including matching, completion, and crossword puzzles.
- **NEW! Updated content** reflects the changes to Kee's *Pharmacology* textbook.
- **NEW! Case study questions** focus on developing your clinical reasoning skills.
- **NEW! Rationales** are added to the answer key for selected application-level questions and case study questions.
- **NEW safety icons** emphasize the nurse's role in patient safety.
- **NEW! Case studies now feature open-ended questions** to promote development of clinical reasoning skills.
