Nordic Ideology between Religion and Scholarship (Zivilisationen & Geschichte / Civilizations & History / Civilisations & Histoire)

Nordic Ideology between Religion and Scholarship (Zivilisationen & Geschichte / Civilizations & History / Civilisations & Histoire)

The articles of this volume treat the expansion of the Nordic ideology in the first half of the twentieth century. They concentrate on the amalgamation of scientific, religious and political features, which transformed the idea of the North into a mainstay of extreme nationalism. Lacking positive norms and values, the Nordic idea depended on the opposition against everything deemed un-Nordic. *Völkisch* Nordicism shared with conventional forms of nationalism the enmity with Judaism and *Bolshevism* and - to a lesser extent - with *Anglo-Americanism* and Catholicism. Beyond that, it constituted a mythological counter narrative that combined the idea of spiritual kinship with biological lineage, on Pagan as well as on Christian grounds.
