PHYTOCHEMICAL DIVERSITY (Special Publications) S. WRIGLEY, M. HAYES, R. THOMAS, E. CHRYSTAL

The primary focus of these conference proceedings concerns the discovery of plant constituents with particular reference to potential utility in the pharmaceutical and agrochemical industries and emphasizes recent technological developments. These include high throughput screening and the requirement for efficient dereplication procedures, which involve the early recognition both of known compounds and the presence of multiple samples containing the same active chemical.
