Charlotte & Leopold: The True Story of the Original People's Princess James Chambers

This is the story of the doomed romance between Charlotte, heir to the English throne, and Leopold, uncle of Queen Victoria and first King of the Belgians. Charlotte was the only legitimate royal child of her generation, and her death in childbirth was followed by an unseemly scramble to produce a substitute heir. Queen Victoria was the product. Chambers brilliantly demonstrates how the personal and the political collide in scheming post-Napoleonic Europe, offering a vivid and sympathetic portrait of a couple whose lives are in many ways not their own. Charlotte & Leopold is a moving and always entertaining royal biography with an alluring contemporary resonance.
